

Science – Arash Ganji (Year 13)

Arash joined the school at KS4 moving from Iran. At that time, he was unable to speak or write English. He has since become articulate and expert in English allowing him to access all courses. This in itself shows his determination and commitment to education and doing well.

Like Dylan, Arash has been given this award following outstanding AS level results in the science subjects. He achieved the best possible results 4 grade As in Biology, Chemistry, Physics and Mathematics. He has taken on a leadership role in the Science Committee which delivers science club to the younger students. Arash has applied to study medicine and has been for an interview at Exeter and is awaiting the result. Arash is a credit to himself and the academy and is a great example showing how determination can pay off; he is a great ambassador for the Science Academy.
