

Sports Award – Sophie Moss - Introduced by Vice Principal Tony Segalini

Throughout her academic career at KSA, Sophie has taken a full and active part in extra-curricular activities within the academy and has represented us in the school netball and rounders teams. She has also been an active member of the school team in district athletics and cross country events. Her success as an athlete for Kettering Town Harriers has been mirrored by her success at a school level representing both the district and then the county team for cross country. She successfully represented the county last year at the All England Cross country championships and hopes to emulate this next year when she hopes to achieve success at the County championships in Northampton in January. Alongside her success within practical Sophie shows real dedication to her GCSE PE studies working hard to achieve at least target grades in her unit tests, we hope this will lead to success in her exam in May.
