Dear Parent/carer,

As we are closely following Government guidelines we are ventilating the school building as much as we possibly can, this involves purging the air in the building at regular intervals using our climate management system and opening external doors and windows when necessary.

As a result of this and as the weather gets colder the building itself can become rather chilly. Whilst we are not relaxing uniform requirements when it is cold we will allow students to wear an overcoat in the building and if this is not available the students may wear a jumper, sweatshirt or hoodie under their blazers and over their shirt and tie as long as these items are dark blue or black. We would prefer there to be no logo on these items, however if there is we would prefer the logo to be as small as possible. For those students who have KSA sports hoodies these are ideal.

If you are considering buying your student a jumper I would point you in the direction of our uniform supplier which means that students can wear this jumper at any time in the future.

I would like to stress that this is only a temporary measure in order for us to maintain a smooth operation of the school during this time and we will not be making any further adjustment to our uniform policy.

Yours sincerely

A handwritten signature in black ink, appearing to read 'A. Segalini'.
