

**Outstanding Key Stage 3 Progress – Justin Ike (Year 10) - Introduced by Progress Leader for Year 10  
Amanda Doherty**

Justin is a hard working student who without doubt has the ability to gain some exceptional grades here at KSA. His results at the end of KS3 were outstanding, in particular Maths and English.

This isn't something that has changed as he continues to produce work that astounds. Recently his English teacher alerted me to his fantastic piece of creative writing. On top of this he gained a grade 7 in maths (which is spectacular in light of the changes and demands seen with the new curriculum and would be a grade A in old money!) in total this shows a massive 5 levels of progress already. This tells us he has a very bright future ahead of him and is extremely impressive. Keep up the good work.
