

How to mummify an orange

What you need.

Orange

paper

Salt/natron

bowl

Spoon

Knife

Spices

tissue

Vinegar

bandages

glue mixed with water.

What to do.

First get an orange.

Secondly roll the orange on the table. After that cut a slit in the orange and scoop out the insides. Next put some vinegar on some tissue and clean the inside and outside of the orange.

Then put a pinch of Spices inside the orange and fill with salt. Then shake it. After that wrap the orange with bandages. Next put the p.v.a glue and water mixture over the bandages. After that dip the strips of paper into the glue mixture and cover the hole orange. Finally leave it to dry.
