Monday 16th December 2019

Dear Parents and Carers,

Here we are at the festive season again, I do feel the year has gone very quickly but it has been a fruitful year for Kettering Science Academy. Looking back over 2019 there have been some fantastic opportunities for our students not only in their educational experience but in our co-curricular and trips programme. Students have been to Austria and Italy, visited CERN in Geneva as well as many careers and personal development visits.

I feel that Kettering Science Academy continues to go from strength to strength and I particularly look forward to the completion of our new Sixth Form Block which is on schedule to be finished ready for September. It has been a fantastic opportunity for KSA to grow in size with our increased number of students joining us in Y7 this year. And I'm looking forward to the continuation of this growth particularly in the Sixth Form in 2020. In our recent Ofsted visit it was noted that our students felt that "many of their teachers have a heart". I do believe this sums the Academy up and it is certainly a school that puts its student first. I firmly believe that if everybody can aspire to be the best that they can be our learning community at KSA will be amongst the best.

I would like to take this opportunity to wish you all a very Happy Christmas and a prosperous New Year and I look forward to what we can achieve together in 2020.

Yours sincerely,

Tony Segalini
Principal
